

Examples of Precision Machined Products

Specialized Nozzles

Vacuum Unit

Enlarged Photo of Vacuum Unit

Parts for Semiconductor Wafer Processing Equipment

Precision Machined Tools and Jigs

Specialized Nozzles

Material

SUS

Machining Technique

Precision machining and assembly of 29G pipe (x 24)

Vacuum Unit

Material

Polyester Resins

Machining Technique

- Machine holes, $\phi 0.15$ (9504 holes)
- Precision grinding (flatness $< 1\mu\text{m}$)

Parts for Semiconductor Wafer Processing Equipment

Material

TAB6400 (6-4Titanium)

Machining Technique

- Precision Machining of long and difficult to machine materials (span: 480 mm)
- Precision grinding (flatness $< 3\mu\text{m}$)
